Great! You made the decision. You want to try a hoverboard. When its time to get started it doesn't get better or easier than the Swagway X2. This is the best entry level self-balancing, personal transporter. Not ready for the bigger, fancier hoverboards? X2 is just for you. Adventures Begin With Your Feet!

The Swagway X2 deploys the same dramatic, gyroscopic technology that totally revolutionizes the way you travel. Steering and stopping are controlled by your balance. It's called Dynamic Equilibrium and its all based on the shifting of your body weight. You lean – It responds! Yes, you can do this! It's simple to operate, easy to control, and looks incredibly cool! The X2 even gives you an advantage with a built-in learning mode that teaches you the dynamics before you go full blast.

The new X2 is lighter than other hoverboards at 22 lbs, but carries loads up to 220 lbs, while still rolling along at up to 8 mph for nearly 12 miles. Like all Swagway models, the X2 is environmentally friendly, producing zero emissions. Solidly constructed, the Swagway X2 employs only the highest quality components. The X2 raises the bar on user experience with features such as an ABS shell, lighter weight, and a smart battery management system that also maximizes charge. Ready to roll for the very first time? Get the Swagway X2 – the best beginner board.

The Swagway Hoverboard will ship separately from all other items in your order including other Swagways. Each Swagway ships separately.
